Dr Yermia Semuel Mokosuli

We have reached a decision regarding your submission to JURNAL **BIOEDUKATIKA**,
"An Insect Morphology Study Associated With Water Hyacinth, In Tondano Lake,
And Development As A Biological Learning Resource".

Our decision is to: Major revision
Please send your revision in 2 weeks.

Much. Fuad Saifuddin
Universitas Ahmad Dahlan
fuad.saifuddin@pbio.uad.ac.id

Reviewer C:

General comment:
This study concerns an entomological study in lake Tondano and an
audiovisual learning environment produced during the study. The article could
be interesting if a series of major issues present in the manuscript are
improved. That is:

- 1) Extensive proofreading is essential to improve the texts comprehension.
This is the major problem in my view. There are a lot of sentences without
verbs, sentences that are not understandable, mistakes in terms, that needs
authors attention and care.
- 2) A second, equally serious, problem is that the study seems not to have a
clear focus. If the focus of the study is to evaluate the audio-visual
learning environment, I cannot understand the reason for not being included
in the manuscript a detailed description of the media that is evaluated
