Dear Editor
Solid State Technology presents
(SST Journal)

We have read and used scientific articles published in SST Journal.

The performance of the SST Journal was excellent, and the published article helped us conduct research and write scientific reports.

I am Jourike Jeane Runtuwarouw. Represent other authors, Lecturer from Universitas Negeri Manado.

We have completed a scientific article entitled "**The Integration of Learning Japanese Writing and Character Education of Students at Japan Language Department of Language and Art Faculty of Manado State University.**"

We hope this article can be published in the SST Journal because there are interesting findings in the scientific report that can become new treasures in science, especially in education sciences.

I am willing to go through the review process following SST Journal standards.

Best Regards,

Jourike Jeane Runtuwarouw
Universitas Negeri Manado

Editor and Reviewer comments:

Reviewer #1:

1. The abstract has not clearly discussed the research objectives and results, so readers do not understand this journal.
2. The English in parts approaches is incomprehensible, so as a first step, a firm editorial hand would be needed to figure out what needs to be rethought.
3. The literature review has not explained the theories that are related and relevant to the research object and are well related to the study results.
4. The focus of this research can be developed for further study, both in Indonesia and abroad, because the topic is very relevant to the novelty of other related research.
5. References are good enough, but we still need to find the latest references so that this research becomes more up-to-date.

I hope you can make improvements as soon as possible and send the revised article again via this email.

Dear

Jourike Jeane Runtuwarouw, et.al.
Universitas Negeri Manado

Thank you for your team efforts to make improvements to your team article.

Based on the Reviewers' considerations, the article has, at some point, increased.

However, a team have to improve on a few more points. Hopefully, you are willing to do it.

Please follow the following revision instructions:

#Reviewer 2:

1. The abstract already has a problem topic regarding the purpose of the method and the research results so the reader can easily understand.
2. The introduction has explained the research's background, purpose, and use.
3. The literature review has explained well the related theories that are relevant to the object of the research results.
4. The focus of the research can be developed for further study, both for research in Indonesia and abroad.
5. References are good enough, and the latest connections are more up-to-date.

Articles that have been revised and please send them back via this email.
